TEN CENTS A WEEK

FLORIDA LEGISLATURE AGAIN HARD AT WORK

**Senate Decides That Messrs. Massey and Withers
Are Eligible---Many Bills Introduced.**

TALLAHASSEE, April 13.—After a somewhat stormy discussion, which lasted for over an hour, the Senate yesterday afternoon voted to declare Senators Louis C. Massey and I. N. Withers eligible to their seats in the Upper House of the Legislature.

The discussion was precipitated by the submitting of an unfavorable report upon the two resolutions of Senator Beard attacking the eligibility of the two Senators by the Committee on Privileges and Elections. Senator Beard wished to have the two cases set for a special order Friday morning, but was voted down.

During the discussion over the matter some hot talk passed between Chairman Cone of the committee and Senator Beard, and some of the other members who were divided on the question also expressed themselves rather strongly. Senator Beard intimated strongly that the committee had not gone into the matter as deeply as it should, and Senator Cone on the other hand retorted that he considered it up to Senator Beard, who was pressing the matter, to bring any evidence he might have before the committee.

Senator Beard wanted a resolution passed setting the hearing of the matter for a special order Friday, and calling the Railroad Commission and the Internal Improvement Fund Trustees to produce their minutes to be used as evidence to prove the employment of the two gentlemen respectively. There were repeated roll calls upon various phases of the question, but Senator Beard lost, and the two, Senator Massey and Senator Withers, will keep their seats.

Routine Proceedings.

Twenty-eight members were present for roll call when the Senate was called to order at 4 o'clock. Prayer was offered by the chaplain and the reading of the journal was dispensed with.

Senate concurrent resolution No. 4 was introduced by Mr. Beard, but was laid over until today for consideration. It provides for a committee of five, two from the Senate and three from the House, to be appointed to investigate the condition at the State Deaf, Dumb and Blind school at St. Augustine, and upon the needs of the institution.

Senate joint resolution, No. 14, by Mr. Cone, was adopted under suspension of the rules. It provides that reports of committees on bills and joint resolutions shall be spread on the journal and placed on the calendars.

but that the reports shall not be read unless the reading is called for.

New Bills.

The following are among the new bills introduced:

Senate joint resolution No. 68, by Mr. McMullen, proposing an amendment to section 19 of the State Constitution.

Senate joint resolution No. 70, by Mr. Miller, proposing amendment to section 1, article 10, of the constitution, regarding homesteads. To constitutional amendments committee.

Senate bill No. 69, by Mr. Beard, authorizing defendant to condemnation proceedings to file pleas putting in issue the need for such condemnation proceedings. To corporations committee.

No. 71, by Mr. Broome, obligating judges to pay jurors summoned on a panel, and after the panel has been exhausted to pay such jurors \$2 per day, and for each fraction of a day. Now is discretionary with the judge as to whether the juror shall be paid for the full day or not. To Judiciary A Committee.

No. 75, by Mr. Harris, to validate and confirm, grants, privileges and permits made by cities and towns by resolution or ordinance, where acted on by the grantees and grantors. To municipalities committee.

No. 76, by Mr. Sams, providing for service by publication upon non-residents against whom suit is brought for contract. To Judiciary B Committee.

No. 77, by Mr. Sams, prohibiting fishing in fresh water, lakes and streams of Volusia county with nets or seines. To game and fisheries committee.

No. 79, by Mr. Baker of the Twenty-ninth, by request, for an additional appropriation of \$2,500 for the erection of a monument on the battlefield of Olustee. To pensions committee.

No. 81, by Mr. McMullen, requiring boards of county commissioners to call for bids for public works and supplies and providing a penalty for neglect to do so. To Judiciary B Committee.

No. 82, by Mr. McMullen, providing for a special tax levy for roads and bridges. To Judiciary A Committee.

No. 83, by Mr. McMullen, abolishing the present registration lists, providing for new ones, requiring the payment of poll taxes by people themselves except under certain conditions. To privileges and elections committee.

No. 84, by Mr. McMullen, providing

ARNOW REELECTED TO MARSHALSHIP

WON EASILY OVER HIS OPPONENT, C. C. WARREN.

**Total Vote Polled in City Election
Tuesday Was Only 513.
The Result.**

The city election passed off very quietly yesterday and there was practically no interest taken in the race outside of the office of marshal. Friends of the candidates in this contest worked hard for their respective candidates.

The vote polled was light, but good for the number that had qualified. It will fall in the neighborhood of two hundred short of what was polled last year.

The result shows that Judge Horatio Davis and B. T. Arnow have been re-elected mayor and marshal respectively, while W. M. Bradford won over B. R. Colson for assessor. There was no opposition to the remainder of the ticket.

The vote was as follows:

For Mayor—S. J. Burnett, 161; Horatio Davis, 283.

For Marshal—B. T. Arnow, 307; C. C. Warren, 163.

For Assessor—W. M. Bradford, 334; B. R. Colson, 109.

For Collector—T. B. Ellis, Sr., 379.

For Clerk and Treasurer—J. M. Dell, 368.

For Aldermen—C. A. Colclough, 313; J. A. Goodwin, 310; H. L. Phifer, 310; W. T. Pound, 293.

For Board Public Works—H. E. Taylor, 330.

the law as enacted by the Legislature was declared unconstitutional.

An act of the Legislature of 1907 provided for the return payment of the tax money to the counties of DeSoto, Dade and others.

In this veto message Gov. Broward takes the view that the Legislature has no right to decide the matter, according to the provisions of a bill creating and defining the duties and powers of the Internal Improvement Board, by the Legislature of 1855. A consideration of the matter has been set as a special order of business for 10 a. m. Friday. Indications are that the Governor's veto will not be sustained.

Routine Proceedings.

The House was called to order at 3:15 p. m., pursuant to adjournment, by the Speaker.

The colleagues of Messrs. Cox and Dempsey asked that they be granted leave of absence on account of sickness. Upon request of Mr. Davis, Mr. Blanton was also excused.

The privileges of the floor were extended to T. J. Campbell and Roger S. Rogers.

A communication transmitting the resolutions adopted by the State Board of Control relative to the differences existing between the board and the Board of Education was read. Upon motion of Mr. Carter of Alachua the communication was referred to the Educational Committee.

Resolutions Introduced.

Resolutions being next in order, the following were introduced:

House Resolution No. 21, by Carn of Marion—That the Speaker appoint a committee of three to make out a list of every available revenue to the State, and to provide means of information relative to amount of appropriations and revenues of State; adopted.

House Resolution No. 22, by Carn of Marion—That the Speaker be authorized to call one or more night meetings of the House for the consideration of local bills, was referred to the Committee on Rules.

House Resolution No. 23, by Thornton of Volusia—That one copy of House journal be sent to every newspaper, club and public library in the

TARIFF BILL FAILURE AS PASSED BY HOUSE

Filled With Jokers That Pretend to Reduce Schedules But Actually Advance Them.

WASHINGTON, April 13.—"Failure"—this was the word indelibly written across the Taft administration tariff bill that passed the House of Representatives, in the view of experts who have now had time to weigh the measure carefully and render a verdict.

Filled with jokers that pretend to reduce schedules but that actually advance them, reeking with evidences of political barter and mysterious eleventh-hour changes at the hands of the Committee on Ways and Means, the now-famous Payne bill is in the hands of the Senate. It is conceded even by many Republicans that the upper house of Congress must practically either re-frame the bill throughout in the interest of the consumer or prepare to face defeat in the coming Congressional elections.

Will the Senate prove itself to be freer from trust influence than the House? Time will tell. If the Payne bill is improved from the standpoint of the people it will be the first time the Upper House of Congress ever yielded to popular opinion during the consideration of a tariff bill. The Wilson bill, it is recalled, went to the Senate endorsed by the people and after over 600 changes was enacted into law along lines dictated by the trusts.

The special interests still have representation in the Senate. Big industries that contributed heavily to Republican campaign funds will probably save their way in the end, but not without some difficulty. There are a few insurgents in the Senate who will stand with the Democrats in a fight for real revision downward. An interesting fight will undoubtedly occur between the "stand-pat" crowd, headed by Aldrich, and the progressive element of the Republican party and the Democrats.

From first to last the Payne bill discriminates against the South and West in favor of the New England States. There appears to be little hope of this feature being improved in the Senate.

Here are other striking features of the Payne bill:

It fails to provide adequate revenue to run the Government. The Democrats declare this feature alone brands it a fiasco.

It fails to provide for an income tax, but creates an inheritance tax, which is already on the statute books of thirty-three States and will therefore mean double taxation.

It does not provide for a permanent tariff commission, which President Taft says he approves of.

It raises the cost of many necessities, and fails utterly to carry out

the promise President Taft made in his inaugural address of advancement of few schedules, "if any."

It plainly discriminates against the poor in favor of the rich. In advancing the rates on necessities the committee taxed the class of articles that would be principally purchased by the poor much higher than the class of goods purchased practically exclusively by the wealthy.

These are the principal flaws in the great Republican tariff bill which has just been turned out of the Cannon-Dalzell-Payne legislative hopper. And no mention has been made of the hardships imposed upon the consumer by particular increases of duties, as on gloves, hosiery, cocoa, spices of nearly all kinds, lumber and agricultural implements.

In contrast to the Payne bill, the Democrats declare, the resolution introduced by Minority Leader Champ Clark to recommit the measure to the Ways and Means Committee with instructions to make certain amendments will go down in tariff history as an earnest to the country of what the Democratic members favored.

Here are some of the amendments of the Clark resolution, which was introduced just before the vote on the Payne measure, and was rejected by the Republican majority:

"Reduce the duties carried by the bill to revenue rates, so as to raise the maximum of revenue with the minimum of burden of taxation upon the masses of the American people, so adjusting the rate of duty as to deal fairly with both producer and consumer, with due regard to the needs of the Government.

"Provide for a guaranteed tax to be levied on incomes.

"Amend by placing leather, harness, boots, shoes, and all products of leather on the free list.

"Amend by placing articles entering into competition with trust-controlled products upon the free list.

"Place cocoa upon the free list. Cut all increases made in the Payne bill on hosiery and gloves.

"Amend by placing all agricultural implements on the free list.

"Amend by adding the following paragraph: 'Whenever the President shall be satisfied that the price of any commodity or article of merchandise has been enhanced in consequence of any monopoly or trust in the United States, he shall issue his proclamation suspending the collection of all customs duties or import taxes on like articles of merchandise or commodities brought from foreign countries.'

House To Consider Drainage Tax Matter Friday

TALLAHASSEE, April 13.—When the House met Monday the expected effort to reconsider the concurrent resolution offered by Mr. Hatcher of Columbia, requesting the Comptroller to furnish such information as would prove just what effect State-wide prohibition would have upon tax values, did not materialize. However, this matter may be resuscitated within the next day or two.

Drainage Tax.

Of special interest to the public was the action of the House in deciding to consider on Friday ex-Governor Ward's message bearing upon his as transmitted by the Secretary

of State, upon the bill passed by the last Legislature providing for the returning to the several counties interested, by the Internal Improvement Board of the moneys collected from owners of land in the Everglades by special drainage tax through an act of the Legislature of 1905.

The Legislature of 1905 passed a bill providing for the levy of a tax of 5 cents on each acre of the Everglades in order to create a fund for drainage purposes. The tax was assessed and collected for one year, the money going into the treasury of the Internal Improvement Board. The landowners carried the matter to the courts, and

BEARD'S PROHIBITION BILL TO COME UP TOMORROW

TALLAHASSEE, April 13.—Senate Bill No. 15, by Mr. Beard of the Second District, providing for State-wide prohibition, has been made a special order for April 15th at 11 o'clock. The bill is worded as follows: "A Bill to be entitled 'An act to prohibit the sale, exchange, or barter of intoxicating liquors, wines, or beer in the State of Florida and providing a penalty for the violation thereof.'

"Be It Enacted by the Legislature of the State of Florida:

"Section 1. The sale, exchange, or barter of intoxicating liquors, wines, or beer in the State of Florida is hereby prohibited.

"Sec. 2. Any person, association of persons, firm or corporation which shall sell, exchange, or barter intoxicating liquors, wines or beer in the State of Florida shall be deemed guilty of a felony, and upon conviction thereof shall be imprisoned in the State prison for a term of not less than two or more than five years.

"Section 3. Each and every sale, exchange or barter of intoxicating liquors, wines or beer in the State of Florida shall be, and is hereby declared to be, a separate and distinct offense.

"Sec. 4. All laws and parts of laws in conflict with this act shall be and the same are hereby repealed.

"Sec. 5. This act shall go into effect on the first day of October, A. D. 1909."

"Be It Enacted by the Legislature of the State of Florida:

"Section 1. The sale, exchange, or barter of intoxicating liquors, wines, or beer in the State of Florida is hereby prohibited.

"Sec. 2. Any person, association of persons, firm or corporation which shall sell, exchange, or barter intoxicating liquors, wines or beer in the State of Florida shall be deemed guilty of a felony, and upon conviction thereof shall be imprisoned in the State prison for a term of not less than two or more than five years.

OVER 275,000 VOTES POLLED YESTERDAY

MISS FLORRIE STRICKLAND RECEIVED LARGEST NUMBER.

A Few Rules Which Will Be Enforced
On the Closing Day of
Contest.

Today and tomorrow and the piano contest which has been the talk of the town for the past three months will be over.

Miss Dorian Ellis and Miss Bessie Dupree are equal favorites, and only the last count will decide the contest, is the way it looks this morning. It has been reported that each of the young ladies are holding back a big reserve to spring on the last moment.

Candidates must, however, take notice that the contest will close at 7 p. m. on Thursday night. The votes will be taken up promptly at that hour and none whatever will be received at this office or at any other of the polling places after that hour. This is one hour after the last mail is opened and if any votes should come by mail you will have had plenty of time to get them in.

On account of the rush that we expect on the last afternoon of the contest we will call our clubbing offer off at 12 noon. Let every candidate who wishes to take advantage of the clubbing offer be on hand before that hour.

We will, of course, accept subscriptions and issue votes up until the closing of the polls, but will not give the extra votes for clubs of five as we have done in the past and as we will do up until 12 o'clock noon tomorrow.

Following is the standing of the candidates:

Chairman Cone of the Committee on Privileges and Elections reported unfavorably upon the resolutions introduced by Mr. Beard attacking the eligibility of Louis C. Massey of Orlando and of I. N. Withers of Lady Lake, to their seats. Substance of the report was to the effect that there was nothing in the charges.

After this was settled, adjournment was taken until Tuesday at 10 o'clock.

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp, or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. The medicines usually given internally for rheumatism are poisonous or very strong medicines. They are worse than useless in cases of chronic and muscular rheumatism. For sale by all druggists.

ANOTHER RAILROAD THROUGH THE MINES

SEABOARD PLANNING FOR SPUR FROM WANNEE BRANCH.

Would Prove Valuable Move for the Great Phosphate Interests in That Section.

Another new railroad is to connect the phosphate mining interests of western Alachua, so it is rumored, and surveyors for the proposed extension are now looking after the details of this work.

It is stated that the line will run from a point about four miles west of Wade and will cover a distance of about fifteen miles, being a spur, or branch of the Seaboard.

The preliminary survey for this spur has already been made, but no contracts have been entered into, and it is understood that the surveyors were here Monday for the purpose of making arrangements for the proposed route.

This will afford the phosphate interests an outlet from two different lines if the promoters are successful in getting the line put in operation, and will be the means of saving much money to those living in this section but having no railroad facilities.

The line will run directly south from its beginning and will be close to Newberry, running to a point near Archer, and may eventually connect with the Cedar Key division from the Wannee branch of the Seaboard.

NEW YORK ACTRESS

Parisian Sage Made Her Hair Grow Two Inches in Seven Months.

Of all the women in the world, an actress most ardently desires beautiful and luxuriant hair. And when her hair begins to fall out she becomes anxious, and intelligently seeks for a preparation that will stop the havoc, grow new hair and give life and beauty to the old.

Joan Sawyer, a clever, handsome actress, has this to say of Parisian Sage:

"To whom it may concern: Have tried most every hair tonic available, and at last Parisian Sage was recommended to me, and as a last recourse, used it to my entire satisfaction. My hair has stopped falling, dandruff stopped, and my hair has grown two inches in the last seven months. It is the best and only sure cure for thin and short hair I know."—Joan Sawyer, 59 East 96th street, New York City.

Parisian Sage is the scientific hair restorer that has created such a sensation since its introduction into America about two years ago. It is such a quick-acting prescription that every agent who sells it will guarantee it to cure dandruff, stop falling hair, splitting hair, and itching scalp in two weeks, or money back.

It is the most delightful hair dressing in the world, and is highly praised by society women and actresses who have luxuriant and glorious hair.

It will turn harsh, lusterless hair into soft, silky and luxuriant hair in a few days.

W. M. Johnson is the agent for Parisian Sage in Gainesville and he sells it for 50 cents a large bottle, the largest bottle for the price on the market.

Better. Healthier Women

are known to exist in this country by thousands because freed from pain and suffering by Lydia E. Pinkham's Vegetable Compound.

Could such a record be made without actual and superior merit? Read what this woman says, and realize that the results secured in her case could not have been made except by a very good medicine.

Detroit, Mich.—"For more than ten years I suffered with all the troubles women have. I had one doctor after another without receiving any benefit. They advised an operation, but I refused to have one. My body and feet were swollen, caused by my female trouble. I was very nervous, had no appetite, indigestion and heart trouble.

About six months ago I heard of Lydia E. Pinkham's Vegetable Compound and decided to try it, and in six weeks I was well and strong.

"I have had the pleasure of seeing five friends made well by this medicine, and I want to say to all suffering women take Lydia E. Pinkham's Vegetable Compound. If any woman is in doubt she can write to me and I shall be most happy to give her all the information I can."—Mrs. Freida Rosenau, 554 Meldrum Ave., Detroit, Mich.

Science in surgery and electricity has advanced much in the past 30 years, but the treatment of disease by the old fashioned roots and herbs method has never been improved upon. The fact that this leader of them all—**Lydia E. Pinkham's Vegetable Compound**—is to-day the largest seller of any similar medicine in the world, is proof positive of its value and superiority, for with all our enterprise and advertising we could not keep fooling the people for 30 years. Merit and merit alone is what has made Lydia E. Pinkham's Vegetable Compound the standard medicine for treating diseases peculiar to women.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

SUDDEN DEATH OF MR. J. O. LAFONTISEE

EXPIRED IN HIS ROOM IN WASHINGTON CITY TUESDAY.

Information Received by Relatives
Gave No Intimation of Cause
of His Death.

News was received in Gainesville Tuesday of the sudden death of Mr. J. O. LaFontisee, who was well-known in this city and a young man esteemed by a large circle of friends.

No particulars were obtained, further than a brief wire which announced the fact that he had been found dead in his room at the St. Regis Hotel, in Washington, D. C., about 12 o'clock, which is about 11 o'clock by our time.

Mrs. LaFontisee had left Washington only a few days previous and arrived at Hawthorn, where her sister, Miss Stringfellow, was to be married today. At the time of her departure Mr. LaFontisee was in fine health, which makes his death come as a great surprise.

Mr. LaFontisee was born in New York State but came to this city when but a mere child and began work in the newspaper business. His advancement in his chosen profession was remarkable and for many years he held responsible positions on this paper, going from the bottom up to the city editorship and made one of the best news gatherers ever employed in this capacity.

He left the employ of this paper to enter a larger field of work and was soon filling the position of city editor of The Times-Union, but resigned after a year's service and at the time of his death was engaged in classifying the work of the Forestry Department, the data having been secured by several men under him as chief, and embraces all of the Southern naval stores States.

He also figured very prominently as campaign manager for Governor Gilchrist, and being well-known from his long and continued newspaper work in various sections of the State, his influence and business judgment was largely instrumental in the final result.

Mr. LaFontisee was about 38 years of age, and by his genial disposition and pleasant words for all had gained

GAINESVILLE'S ACQUISITION.

Mrs. Anita Spence of New York to Cast Her Lot Among Us.

The following mention concerning Mrs. Anita Hendricks Spence is taken from The Coat of Arms, a society paper published in Jacksonville, and which will be read with much interest:

"The fortunate members of society who have had the pleasure of making the acquaintance of Mrs. A. J. Cox's charming guest, Mrs. Anita Hendricks Spence, of New York City, will be interested to learn of her engagement to Mr. Newton Anthony Callison of Spring Park Farm, near Gainesville, Florida.

"The wedding is to be solemnized very quietly, next Wednesday, at the home of Dr. and Mrs. James Fletcher McKinstry, at high noon.

"This fortunate little East Florida city will find the bride elect a distinct acquisition. Originally from Tennessee, Mrs. Spence went to New York City and made a very important place for herself. She is an elocutionist and reader of unusual ability, and her drawing-room work was with the most cultured people of New York City's exclusive circles. When she went abroad she carried letters of introduction to a number of exclusive London and Paris society women and her success there was distinct.

"Mrs. Spence belongs to several attractive New York organizations. She is chairman of the Dixie Club, of four hundred members; and is a member of the Mary Arden Shakespeare Club which is limited to twenty-five members and always has a waiting list. She resigned from this club since her engagement, but the club refused to accept the gracefully worded resignation, and insisted that her membership be kept, a very unusual honor. Mrs. Spence was a delegate to the memorable January meeting of the City Federation of New York clubs.

"She is an ardent Daughter of the Confederacy and belongs to Mrs. James Henry Parker's New York Chapter of eight hundred members. She assisted at the January flower ball, on the committee of arrangements, and has always been prominent.

"Her most intimate friend in New York is Ella Wheeler Wilcox, who has done much to make her life there pleasant.

"Mrs. Spence has recently come from Gainesville, where she was the guest of Dr. and Mrs. McKinstry, and one of the many social courtesies shown her was a reception given in her honor by Mrs. H. H. McCreary, president of the United Daughters of the Confederacy.

"Mrs. Spence could have no more delightful introduction to Jacksonville society than as the guest of her hostess, Mrs. Cox, and it will give much pleasure to everyone that so talented a woman is to become a resident of this State.

"Monday afternoon, at the Woman's Club, Mrs. Spence will recite, adding another feature to the distinctive afternoon."

WORK COMMENCED ON EAST MAIN STREET

MATERIAL NOW BEING PLACED ON GROUND FOR PAVING.

G. H. Cairn of Jacksonville Receives the Paving Contract, Also Sewers and Gutters.

Work has at last commenced on East Main street and within a few weeks the citizens of Gainesville will have their first vitrified street.

The contract for this paving was let to G. H. Cairn of Jacksonville, who has had charge of similar work throughout the country and who was here a great deal during the sewer work done by Contractor Beeman.

Dr. Porter will have his side of the street fitted with a granolithic gutter while the west side, owned by Lee Graham, will be granite, this material already being ordered for the work.

The contractor stated yesterday that he would commence the work at once, being already busily engaged in raising the sidewalk for Dr. Porter, and will immediately place the gutters along the street. He has also secured the contract from the council for he drainage sewers and will install them before laying the brick.

This piece of improvement is only the forerunner of many blocks that will follow with this material, and all of the citizens hail this improvement with a keen sense of delight.

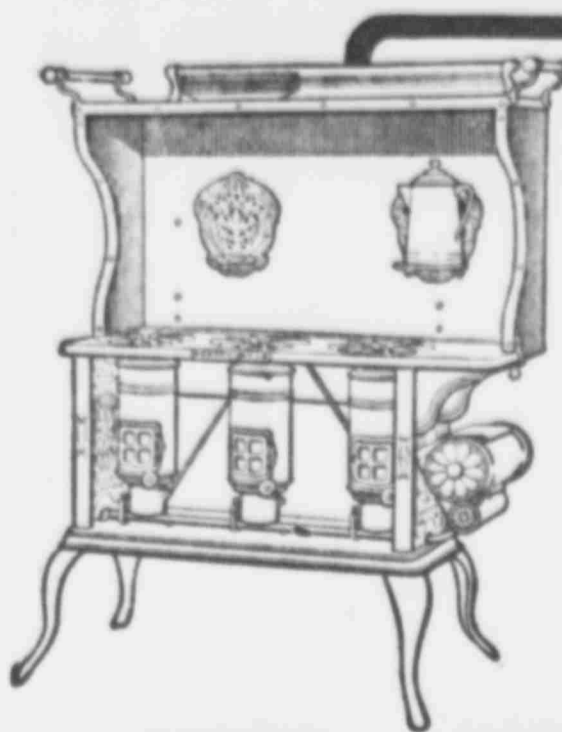

For Constipation.

Mr. L. H. Farnham, a prominent druggist of Spirit Lake, Iowa, says: "Chamberlain's Stomach and Liver Tablets are certainly the best thing on the market for constipation." Give these tablets a trial. You are certain to find them agreeable and pleasant in effect. Price, 25 cents. Sample free. For sale by all druggists.

"The Union Depot."

One of the largest audiences of the season greeted the presentation of "The Union Depot" at the Baird Theatre last night. Further mention will be made tomorrow.

If you have backache and urinary troubles you should take Foley's Kidney Remedy to strengthen and build up the kidneys so they will act properly, as a serious kidney trouble may develop. J. W. McCollum & Co.

The Oil Stove With a CABINET TOP

The New Perfection Wick Blue Flame Oil Cook-Stove differs from all other oil stoves.—It has a CABINET TOP. This means you can keep dishes and utensils within easy reach while cooking, and can keep food hot after removing it from the blaze.

From its wonderful burners to its racks for holding towels the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is without equal. Its principle of concentrated heat means that the work can be done quickly and without the kitchen being heated to an unbearable degree. Can be lighted instantly and turned "high," "low" or "medium" at will. Three sizes. With or without Cabinet Top. At your dealer's, or write our nearest agency.

The Rayo Lamp

comes as near lamp perfection as it's possible to get. Gives a clear, bright light that reaches the farthest corner of a good-sized living-room. Well made throughout of nickeled brass; perfectly safe and very ornamental. If not with your dealer, write our nearest agency.

Some few slight disagreements over the tariff.

That Virginia man who has three wives must feel safe in jail for three years at least.

"Figures cannot lie," notes The Baltimore American. But in the matter of the feminine waistline they can certainly keep us guessing.

There may be some question as to how much revenue the Payne bill will produce, but one week's debate in the House resulted in an output of 500,000 words.

Harriman will probably retire from active management of his many railroads, but will continue as a sort of ex-President Roosevelt in American affairs financial.

If the Legislature will kill three-fourths of the bills offered and ignore three-fourths of the advice tendered, it will accomplish much, remarks The St. Petersburg Independent.

Hunting in Africa has been described as like "shooting cows in a backyard." However, if anybody thinks this would not be exciting, let him try it on the cows of an average farmer.

Now that the Roosevelt expedition has disclosed the existence of Membasa, it would seem to be the order for some good Ohio man to proceed to have himself appointed consul thereto.

In the New York Mail of Saturday last, Mr. Joseph Edgar Chamberlain discussed "Mr. Harriman as a human being." Quite a novel idea it was, indeed—nobody seemed to have thought of it before.

Uncle Joe Cannon's remark that Champ Clark doesn't discriminate between facts that are facts and facts that are not facts is somewhat ambiguous, but it seems to be wholly parliamentary.

"The Atlanta Georgian seems disposed to take a lenient view of the man who traded his wife for a keg of beer," says The Milwaukee Sentinel. Milwaukee, naturally, is interested in the views various communities take of that proposition.

The War Department is in the market for 100 cavalry horses, to be shipped from Seattle to the Philippines. They are to be geldings of superior class, of solid colors, bays, blacks, browns, chestnuts, or sorrels, and are to be free and easy at the walk, trot and gallop.

The Republican leaders in the House were obliged to make concessions in order to limit debate on the tariff bill. They agreed to allow special votes on hides, lumber, oil, tea and coffee and barley, but they would not under any circumstances give the House a chance to vote for a higher tax on beer.

The fly is one of our worst enemies, and is especially dangerous at this season of the year. They swarm around filthy places, filling their stomachs with every imaginable impurity and then seek restaurants, markets, hotels and private dining-rooms, leaving deadly disease germs at every place they stop. Clean up all breeding places and kill every fly in sight.

UNIVERSAL PEACE.

That the "parliament of man" and universal peace and brotherhood between nations is yet in the fair distance must be obvious to all. A man who invents a quick firing gun, a new explosive, a torpedo, or some other man-killing device, can get the ear of any government far more readily than the man who has a life saving invention.

Just now the craze is for big battle-ships of the Dreadnought type. England sets the pace and other nations follow, and very recently Great Britain was thrown into a panic and voted many additional millions of dollars because it was learned that Germany was building a number of Dreadnoughts and planning to build more. Such a vessel costs millions of dollars and it becomes obsolete in three or four years.

Thinking men are asking how it is going to end, and finance ministers and secretaries of the treasury are at their wits' end in Europe to raise the money with which to build. The burden rests upon the people whose taxes have been enormously increased in recent years, and it is plain that before very long some of the nations will face bankruptcy and then perhaps sheer financial exhaustion may compel them to halt in their mad race.

That universal peace will come we do not doubt; the only uncertain thing is the method by which it will come. Will it be the acceptance of right principles, or by the adoption of arms, guns, etc., of so destructive a character that war will become impossible, or by the bankruptcy of nations? Perhaps a decade or two more will decide.

The Pensacola Journal believes that the joint resolution calling for the submission of a constitutional amendment for State-wide prohibition of the liquor traffic in Florida will be passed by the Legislature, and says the sooner the matter has been disposed of the better it will be for all concerned. In advising an early disposition of the issue, The Journal says: "The point now is that the Legislature—which is going to pass it anyway—should pass this resolution at once and be done with it. That will settle it so far as the Legislature is concerned and that body can then get down to other business, leaving the liquor question to be passed on by the people one year from next November."

It is reported that the new \$3,000,000 office building of the House of Representatives is over-run with mice, attracted there by the thousands of packages of garden seeds which many members have had sent to their rooms in the office building. Doubtless this is a cause of much more serious concern to the many women employees, stenographers and clerks than is the prospect of an increase in the price of feminine wearing apparel proposed in the Payne tariff bill.

Doubtless the majority of the consumers will agree with Champ Clark that it is better the business interests of the country, for which Speaker Cannon shows such extreme solicitude, should go on losing a few hundred thousand of dollars a day while Congress is debating the tariff bill than that the consumers should go on losing millions a year because of the continuation of extortionate duties.

Texas always goes the limit. She proposes to give President Taft a banquet of humming birds to offset the Georgia 'possums.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Servia has just had a humiliating experience in being compelled to acquiesce in the annexation of Bosnia and Herzegovina by Austria. When Austria first made its intention known Servia called out her troops, protested against the annexation and threatened war. Of course a small kingdom like Servia, unassisted by a larger power, would have not the slightest chance against the dual monarchy. This was so obvious that it was generally felt that some nation, presumably Russia, was backing her. There is no doubt that Russia and Austria are jealous of each other and sooner or later they will probably engage in conflict for supremacy in the near East. But Russia is not at present in any condition for war and if she encouraged Servia to protest and threaten against Austria it must have been a game of bluff which did not succeed, and now Servia knows the humiliation of defeat and the bitterness of relying upon a professed friend that does not make good.

In counselling the Legislature to proceed with caution in amending the primary law, if such is contemplated at this session, The Tampa Times says: "If an attempt is made to amend it at Tallahassee the chances are that it will result in mangling the law, which is pretty good now. It may have some minor faults, but we do not remember to have heard or seen anything of a kick from the voters. The only voices audible in opposition are those of politicians, too many of whom are 'agin' its results. When we find that the honest voters are kept away from the polls it will be time enough to look for the fault. The sages at the State capital might do worse than let the primary law entirely alone."

Mr. Cortelyou has a nice light job now—president of the gas company.

ANOTHER CULVERT FOR SWEETWATER BRANCH

TO BE PUT IN ON MECHANIC STREET OPPOSITE SCHOOL.

Several Items of Property Assessments Reduced—Tax Collector's Report Received.

At an adjourned meeting of the City Council Monday evening the following members were present: President Pro Tem Cannon, Aldermen Burnett, Broome, Graves, Vidal, and Clerk Dell.

The committee on claims, through its chairman, S. J. Burnett, made the following recommendations, which were adopted by the board: That the property of Mrs. Bauknight on Liberty street be reduced to \$2,000 and on Union street to \$3,000; Willis McRae from \$400 to \$100.

Alderman Burnett moved that the bills of Tax Collector Ellis for \$100 and \$519.41 be paid out of the Officers' Fund.

Alderman Graves moved that Mr. Cairn be awarded the contract for stone sewers across East Main street at 54 cents per foot and the catch boxes at cost of 11 per cent extra, which was carried.

The chairman of the street committee was instructed to get bids for putting in a culvert on East Mechanic street across Sweetwater branch.

The report of Tax Collector Ellis showing taxes collected \$14,875.78 and licenses \$39.25 was received and ordered filed.

Upon motion an adjournment was taken until Thursday evening at 7:30, when they will meet to canvass the returns of the election and transact such other business as may come before the meeting.

MARRIAGE AT HIGH SPRINGS.

Mr. Warner Thompson and Miss Susie Richardson United.

HIGH SPRINGS, April 13.—A quiet wedding at the home of the bride took place Sunday, when Miss Susie Richardson, daughter of Mr. and Mrs. Henry Richardson, and Mr. Warner Thompson, engineer on the Atlantic Coast Line, were married. Rev. G. E. Thompson performed the ceremony in his usual happy and impressive style. Only a few friends besides the family were present on the felicitous occasion, but a host of friends unite in extending congratulations to the happy young couple.

Wm. Futch and family have moved to St. Petersburg much to the regret of their many friends here. They resided in High Springs for a number of years and have been closely allied with the business and social circles of the town. They belong to a prominent family of Alachua county, and their loss will be keenly felt by the town and community at large. Mr. and Mrs. T. C. Stevens are also moving to St. Petersburg. They, too, have long been residents of High Springs and will leave many friends here to regret their departure.

A baby girl was born to Mr. and Mrs. George Reynolds last week, and their numerous friends are congratulating them on the happy event.

Mr. and Mrs. Harry McDonnell are also receiving congratulations on the birth of a little daughter last Thursday.

The entertainment given by the Home Mission Society for the benefit of the parsonage was a success financially. A beautiful cake was voted to the most popular lady and was won by Miss Annie Vott of Lakeland. She is visiting her grandparents, Mr. and Mrs. Vassie, of this place.

Mrs. John Vassie of Gainesville is visiting relatives in High Springs. Her many friends are delighted to see her.

After Escaped Convict.

Deputy Sheriff J. B. Kennard of Waldo Sunday night got on the trail of some escaped State convicts and had quite a lively chase after the men, who finally eluded the officer. It was rather dark, and although he fired at them, and is confident that he wounded some of the party, they made good their escape and are now probably in other quarters.

BELL NOTES.

BELL, April 13.—A general circle of congenial drummers and insurance men visit our little village and seemingly have a nice run of trade.

A good crowd witnessed the closing exercises of Miss Kathryn C. Salter's private term of school. The recitations were delivered in splendid oration, and the class drills on the various studies gave much credit to the instructor, and proved cultivated principals to the pupils. Miss Salter has departed for her home in Brooksville.

The patrons and pupils greet her the following toast:

When in our silent graves we sleep,
And bending willows o'er us weep,
Twill be then and not before.

That we'll think of our dear little teacher no more.

Objects to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. SURE CATARRH CURE

Brings the Forests of Pine and Eucalyptus to Your Home.

Germes cannot live when Hyomei (pronounced High-o-me) is used. You just breathe in this soothing yet most powerful antiseptic air and relief is immediate. It is exactly the same air as you would breathe in the forests of pine and eucalyptus of Australia where catarrh or consumption was never known to exist.

If you have catarrh and are constantly embarrassed because you must hawk, spit and snuffle, surely you will give Hyomei the attention it deserves, when J. W. McCollum & Co. will guarantee this pleasant remedy to cure all this distress and humiliation, or will give you your money back. Hyomei kills catarrh germs. It relieves the soreness and distress in five minutes. It stops hawking and snuffing and makes you feel like a new man in a week. It is the surest and most satisfactory catarrh treatment known and gives comfort and relief to consumptives.

A complete outfit, including inhaler, costs but \$1.00, and extra bottles, if afterward needed, cost but 50c. A few minutes' time each day is all you need to quickly cure the most chronic case. Hyomei is sold by leading druggists.

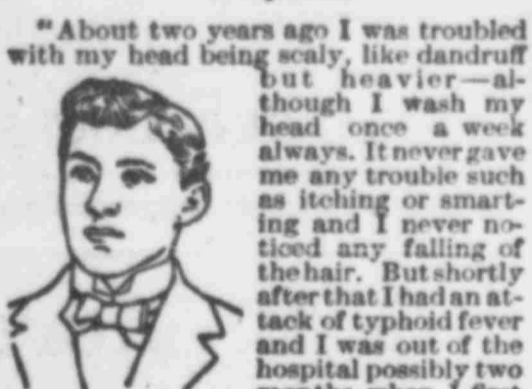

MI-ONA Cures Indigestion

FEARED TOTAL LOSS OF HAIR

Scalp had been Scaly for Some Time—After an Attack of Typhoid Fever his Hair Began to Fall Out by the Handful—Now It is

THICKER THAN EVER THANKS TO CUTICURA

"About two years ago I was troubled with my head being scaly, like dandruff but heavier—at times I wash my head once a week always. It never gave me any trouble such as itching or smarting and I never noticed any falling of the hair. But shortly after that I had an attack of typhoid fever and I was out of the hospital possibly two months when I first noticed the loss of hair, my scalp being still scaly. I started to use a dandruff cure to no effect whatever. And I used a quinine preparation quite freely which did no good either. Whether it was the effect of the fever or some scalp disease I don't know, but I had actually lost hope of saving any hair at all. I could brush it off my coat by the handful. It got so bad that I didn't need to comb it any more—in fact I was afraid to. My brother, who had used the Cuticura Remedies with satisfaction, advised me to try them. After using two cakes of Cuticura Soap and nearly a box of Cuticura Ointment, the change was surprising. My scalp is now clear and healthy as could be and my hair thicker than ever, whereas six months ago I had my mind made up to be bald in a short time. I will have a photograph taken later and send you one. William F. Steese, 5812 Broad St., Pittsburg, Penn., May 7 and 21, '08."

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, assisted when necessary by Cuticura Resolvent (liquid or pills), afford instant relief in the most distressing forms of itching, burning, scaly, crusted humors, eczemas, rashes, inflammations, irritations and chafings of infancy and childhood, permit rest and sleep and point to a speedy and permanent cure, in the majority of cases, when all other remedies fail.

Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Chocolate Coated Pills (25c.), are sold throughout the world. Foster Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston.

House Bill No. 127, by Alexander of Volusia—Providing for appropriation to place statue of the late Senator W. J. Bryan in Century Hall, Washington.

House Bill No. 128, by Alexander of Volusia—That boards of commissioners be compelled to advertise for bids for all county work.

House Bill No. 130, by Malone of Monroe—Regulating practice of veterinary surgeons.

The Committee on County Organization reported favorably on the bill for the creation of Palm Beach county.

Communication from the Secretary of State, transmitting Gov. Broward's veto of the bill granting a charter and certain rights and privileges to the Atlantic and Gulf railroad, was read. The Governor's action was sustained.

The Senate announced to the House that it had passed a memorial asking Congress to reconsider the action of the secretary in closing the Pensacola navy yards. Representative Stokes of Escambia asked that the rules be waived and the resolution read the second time, owing to the fact that a temporary rescinding of the order closing the navy yards had been made by the Secretary of the Navy. Motion to waive the rules was lost.

Adjournment was then taken until 10 a. m. Tuesday.

NOTICE FOR PUBLICATION.

U. S. Land Office, Gainesville, Fla.,

March 23, 1909.

Notice is hereby given that B. F. Hampton, State Selecting Agent for School Lands for the State of Florida, has filed in this office his application to locate, under the provisions of the Act of Congress, approved Feb. 28, 1891, the N½ of NW¼ of Sec. 33, Tp. 7 S. of R. 15 E. Any and all persons claiming adversely the lands described, or desiring to object because of the mineral character of the land, or for any other reason to the disposal to applicant, should file their affidavits of protest in this office on or before the 23rd day of April, 1909.

H. S. CHUBB, Register.

During the spring everyone would be benefited by taking Foley's Kidney Remedy. It furnishes a needed tonic to the kidneys after the extra strain of winter, and it purifies the blood to eliminate the impurities from it. Foley's Kidney Remedy imparts new life and vigor. Pleasant to take. J. W. McCollum & Co.

MELROSE NOTES.

MELROSE, April 13.—The box supper for the benefit of the baseball nine, which was given at the town hall Friday night, brought out quite a crowd. There was a good supply of boxes, some very prettily decorated with crepe paper and flowers and all well filled. Every box was sold and about \$20 was realized. During the evening Mr. Cole's phonograph rendered quite a program, for which the thanks of the crowd are extended to Messrs. Cole and Ackroyd. Orange Heights was well represented.

At the monthly meeting of the town council the franchise to the East Florida Telephone Co. was granted. Attention is called to Order No. 26 now posted in the postoffice.

Two very fine palmettoes, over thirty feet high, have been planted in front of Col. Tolles' cottage on Bellamy avenue.

Newly registered at the Huffman House are Mr. and Mrs. Chas. Rybot, and Judge W. M. McGary, all of Cincinnati, Ohio, and Frederick C. Rist, New York.

E. F. Ford has disposed of his 40-acre tract, near the well-known mineral spring, to A. G. McGregor. Mr. Ford and family expect to leave for California next month.

Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says The Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon? For sale by all druggists.

The Salt Sea Legend.

There is a legend in the Norse scalds which explains why the sea is salt. The "bountiful Frodi," whose mythical reign was a golden age indeed, possessed a quern, or hand mill, which ground out gold and peace, but which would grind out stores of anything desired by its owner. Two giant maidens, ruled over by Frodi, were the grinders. In an evil day a sea rover came upon the scene, slew Frodi and carried off the quern and the two giant maidens who worked it. When the sea rover's vessel was right out at sea he ordered the maidens to grind salt. At midnight they asked if they had not ground enough. The sea rover, angry at being awakened from his sleep, commanded them to grind until morning. Now, the giant maidens naturally enough worked very quickly, so as they went on grinding the load of salt grew so heavy that it sank the ship, and now the sea will continue salt forever.

A Healing Salve for Burns, Chapped Hands and Sore Nipples.

As a healing salve for burns, sores, sore nipples and chapped hands Chamberlain's Salve is most excellent. It allays the pain of a burn almost instantly, and unless the injury is very severe, heals the parts without leaving a scar. Price, 25 cents. For sale by all druggists.

ABOUT ADVERTISING—NO. 10

The Man Who Retreats Before His Defeat!

By Herbert Kaufman.

Advertising isn't magic. There is no element of the black art about it. In its best and highest form it is plain talk, sane talk—selling talk. Its results are in proportion to the merit of the subject advertised and the ability with which the advertising is done.

There are two great enemies to advertising profit, and both of them are caused by ignorance of the real functions and workings of publicity.

The one is to advertise promises which will not be fulfilled, because all that advertising can do when it accomplishes most is to influence the reader of your copy to investigate your claims.

If you promise the earth and deliver the moon advertising will not pay you.

If you draw men and women to your store on pretense and fail to make good, advertising will have harmed you because it has only drawn attention to the fact that you are to be avoided.

It is as unjust to charge advertising with failure under these conditions as it would be for your neighbor to rob a bank and find yourself indicted for his misdeed. In brief, advertised dishonesty is even more profitless than unexploited deception.

The other great error in advertising is to expect more out of advertising than there is in it.

Advertising is seed which a merchant plants in the confidence of the community. He must allow time for it to grow. Every successful advertiser has to be patient. The time that it takes to arrive at results rests entirely with the ability and determination you display in the effort. But you cannot turn back when you have traveled half way and declare that the path is wrong.

You can't advertise for a week and because your store isn't crowded say it hasn't paid you. It takes a certain period to attract the attention of readers. Everybody doesn't see what you print the first time it appears. More will notice your copy the second day, a great many more at the end of a month.

You cannot expect to win the confidence of the community to the same degree that other men have obtained it without taking pretty much the same length of time that they did. But you can cut short the period between your introduction to your reader and his introduction to your counters by spending more effort in preparing your copy and displaying a greater amount of convincingness.

You mustn't act like the little girl who planted a garden and came out the next day expecting to find it in full bloom. Her father had to explain to her that plans require roots and that, although she could not see what was going on, the seeds were doing their most important work just before the flowers showed above ground.

So advertising is doing its most important work before the big results eventuate, and to abandon the money which has been invested just before results arrive is not only foolish but childish. It would be just as logical for a farmer to abandon his fields because he could not harvest his corn a week after he planted it.

Advertising does not require faith—merely common sense. If it is begun in doubt and deserted before normal results can be reasonably looked for, the fault does not lie with the newspaper or with publicity—it rests entirely upon the head of the coward who retreated before he was defeated.

THE SUN "WANT" ADS. BRING RESULTS

THE DEATH PENALTY.

Horrors Incidental to Old Time Execution by Drowning.

Execution by drowning was abolished in France by Henri Quatre, only to be revived by one of his successors. It was finally abolished as a statutory method of execution by the earliest decree of the great revolutionaries.

As late as the eighteenth century death by drowning was decreed to a felon in Edinburgh, and in the middle ages it was a common enough mode of doing a convicted criminal to death. That execution of this nature was considered as humane as any other, so far as the victim was concerned, is shown by the fact that it was not unknown among the early Jews, who varied the punishment of stoning adulteresses by drowning them. Among the Egyptians it was common. The Roman lex cornelia sanctioned the method by placing it on the statute records. Tacitus tells us that the Germans copied the practice from the Romans. The Teuton termed it the "last baptism," and he did not allow his powers of imagination to sleep when he set about devising additional varieties which should add to the excitement attending upon the doomed person's departure from life. The convict was sewed up, Monte Cristo fashion, in a bag, and with him were inclosed a vicious dog, a hungry cat, a violent rooster, a venomous viper, all very much alive and presumably kicking.

For what reason it is hard to see, but death by drowning was by many peoples considered preferable for criminal women. In the case of very debased or very mean offenders the Romans had a more or less pleasant fashion of drowning the doomed ones in marshes, first incasing them in elaborate crates.

For refined cruelty in killing off their female criminals the earlier Albanians were certainly the most inventive in the matter of ingenuity. It is commonly known, of course, that even the modern Albanian has less respect for womankind than any other known male in the human catalogue, not even excluding the Chinese. The approved method of doing a criminal or even a displeasing woman to death prevalent among them up to rather less than a century ago was to chain her in a tank into which the water was allowed to flow gradually. As the water reached her breast it was allowed to recede, sometimes back to her ankles, when the refilling of the tank began anew. If the woman had children the torture was varied by the drowning or mutilation of them before her eyes. To various parts of her body was attached such food as attracts rats, of which a number would be let loose.—New York World.

Fog Filters in London.

"All London public buildings are now erected with fog filters," said an architect. "They are essential. London's yellow brown fog, made of the smoke of a million soft coal fires, smells of sulphur, irritates eyes and throat and causes headache. It penetrates houses. Waking on a winter morning, you can't see across your bedroom for it. So now all public buildings filter it. The air is drawn in one orifice only, and fans hurl it against curtains of cotton six inches thick. It is forced through these curtains. It comes out on the other side for distribution through the various rooms a fairly clean, pure, transparent air. But the white filter curtains! Every day they must be changed. It takes only an hour to gray them, and by nightfall they are as black as ink."

Scottish Impartiality.

Color sergeant of highland company (in which were one or two English) calling the roll:

"Angus Mackay!" No reply. (Loud-er.) "Angus Mackay!" Still no reply. (Sotto voce.) "I ken ye're there. Yer aye at yer footy, decent mon, but ye're ower modest to speak before sae mony folk. I see ye fine." (Marks him down in the roll.)

"John Jones!" Squeaky voice replies, "Ere." Sergeant—Ou, aye, ye're here or say ye're here, but ye're sic a muckle leear I canna believe a word that comes oot o' yer mouth, sae I'll jist mark ye doon as absent!"—London Answers.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. J. W. McCollum & Co.
